John has 34 years experience in London Market insurance, covering a broad cross-section of business areas. Initially coming from an aviation underwriting and policy background, John has successfully managed the underwriting services for the company's entire London Market book of business, both direct and reinsurance, encompassing Marine, Fire, Accident and Aviation.

John has also been heavily involved in the outwards reinsurance processing and collection in all of these areas, liaising actively with both the claims and accounting departments.

**Key Skills & Abilities**

- Reporting – Use of AS400 and SQL to produce analytical reports for management.
- Communication – Knowledge of Accounting, Underwriting, Claims and IT enables communication across all levels.

**Key Achievements/ Experience**

- Managed underwriting back-up services for all London Market business written by the company.
- John has deposition experience on various London Market issues and provided invaluable policy assistance to the Market, through both LMCS and Attorneys.
- Regular report production for management and also on an annual basis for auditors/actuaries.
- Has undertaken audits on behalf of the company, both internal and external.
- Has overseen several computer program conversions and has a good working knowledge of AS400 systems, Microsoft Office, and has recently undergone training on SQL2005.
- Integral part of a successful team assigned to collect outstanding reinsurer debts.
